MEMORANDUM FOR: Executive Director - Comptroller, CIA

25X1A

SUBJECT: [ ] Physical Fitness Room

1. This memorandum contains a recommendation for your approval. Such recommendation is contained in paragraph 4.

2. In the original planning for [ ] an area was set aside on the first floor for a physical fitness room. We felt then and continue to believe that with the shift work and often heavy overtime demands placed on our people, a modestly equipped facility should be a great benefit. We have recently circulated a questionnaire among personnel assigned to [ ], the returns from which indicate that 300 persons are interested in utilizing a physical fitness room on a continuing basis.

25X1A

3. Based on the experience at Headquarters, activation of a physical fitness room would require the services of a full-time physical fitness director and approximately \$5,500 for supplies and equipment. (List attached). Hours of operation, fees, etc. would be similar to those in effect at Langley.

25X1A

4. It is recommended that you approve the activation of a physical fitness room at [ ] the employment of a physical fitness director, and Agency funds to defray the cost of supplies and equipment.
